In addition to Paramedicine, FCC's Emergency Preparedness program offers courses in Fire Science, CPR, and First Aid.

CPR and First Aid classes can be held for your business group, church, organization, or friends and family. Training can be held at your site or in a local facility and completed in one day or split into multiple meeting days to fit your schedule. Evening classes are also available. FCC's instructors are certified in American Heart Association.

Paramedicine (PARA)

Associate in Applied Science Degree and Certificates

Graduates of the Paramedicine degree program will have the knowledge, attitudes, skills, habits, and hands-on experience needed to perform pre-hospital advanced life support as they respond to medical and traumatic emergencies under direct medical control. The performance of advanced cardiac life support, pre-hospital trauma life support, pediatric advanced life support, and neonatal advanced life support procedures are stressed throughout the curriculum. Specifically, graduates will be able to: accurately assess a patient's condition, operate a cardiac monitor, interpret electrocardiograms (EKGs), perform endotracheal intubation, initiate intravenous solutions, and administer medicines. This program follows the National Emergency Medical Services Education Standards established by the National Highway Traffic Safety Administration (NHTSA) and fulfills the prescribed requirements that are currently approved by the EMT-P practice by the Illinois Department of Public Health (IDPH).
