## WHAT WE DO

Accounting is one of today's hottest college majors. Olney Central College's two-year Associate in Applied Science Degree in Accounting gives students the ability to enter the workforce immediately after graduation, or with a few additional courses, transfer to a four-year university.

In addition to the associate's degree, the program offers both a one-semester QuickBooks Certificate and a two-semester Professional Bookkeeper Certificate.

## WHAT YOU LEARN

OCC's accounting program prepares accountants and related personnel to meet the needs of area and national businesses. The two-year degree can be completed online.

The QuickBooks Certificate prepares students for high-demand accounting jobs using the QuickBooks software, while the Professional Bookkeeper Certificate readies students for accounting and bookkeeping positions.

## CAREERS

Local businesses, industries and governmental units require accountants, and jobs are available in those fields. With more accounting records being required, the job market appears bright.

Students can continue their studies and complete a Bachelor's Degree in Business Administration through OCC's 2+2 Program with McKendree University. Students take two courses during each eight-week session, attending classes one evening per week at OCC and completing assignments online.
