

NATURAL DISASTER

TORNADOES, SEVERE THUNDERSTORMS, EARTHQUAKES

Because of the diversity of natural disasters, no set of guidelines exists that are applicable to all situations. However, these procedures will serve as a general guideline in the event of a natural disaster.

1. Alert all staff.
2. Direct all students to designated shelter areas and assume disaster positions.
3. Notify:
 - Call 911 if necessary.
 - Call Administration Office, ext. 1121 or ext. 1144.
4. Render first aid if necessary
5. Unless the situation requires evacuation, all students will remain in their safe positions/zones until the all-clear is given.
