

EMT CERTIFICATE (PARA C414)

✓ FCC	LTC	OCC	WVC
-------	-----	-----	-----

This program provides the knowledge and skills required to provide pre-hospital care and function as an entry-level Emergency Medical Technician (EMT) in accordance with the standards established by the National Highway Traffic Safety Administration and the Illinois Department of Public Health. Topics include National Emergency Medical Services (EMS) foundation standards, anatomy and physiology, medical terminology, pathophysiology, life span development, public health, pharmacology, airway management, respiration, artificial ventilation, patient assessment, medicine, shock and resuscitation, trauma, special patient populations, and EMS operations.

Completion of this program should prepare the student for both the cognitive and psychomotor requirements of the National Registry of Emergency Medical Technician (NREMT) exam and the Illinois Department of Public Health (IDPH) Emergency Medical Technician Basic Exam. Students planning to submit an examination request and subsequent licensures will be required to meet eligibility requirements of NREMT, IDPH, and relative agencies.

Program prerequisite includes a current American Heart Association BLS Provider certification.

Professional Licensure Information

This program of study prepares students to seek a professional licensure or certification in the state of Illinois and may not meet minimum requirements for other states. See the Professional Licensure Disclosure at www.iecc.edu/licensuredisclosure for more information.

First Semester	Credit Hours 9
EPM 1202 EMT Fundamentals	<u>9</u>
Total Credit Hours	9

EMERGENCY MEDICAL RESPONDER CERTIFICATE (PARA C421)

This program provides the knowledge and skills required to provide pre-hospital care and function as an entry-level Emergency Medical Responder (EMR) in accordance with the standards established by the National Highway Traffic Safety Administration and the Illinois Department of Public Health. Topics include National Emergency Medical Services (EMS) foundation standards, anatomy and physiology, medical terminology, pathophysiology, life span development, public health, pharmacology, airway management, respiration, artificial ventilation, patient assessment, medicine, shock and resuscitation, trauma, special patient populations, and EMS operations. Successful completion of this program prepares the student for licensure as an Emergency Medical Responder in Illinois.

Program prerequisite includes a current American Heart Association BLS Provider certification.

Professional Licensure Information

This program of study prepares students to seek a professional licensure or certification in the state of Illinois and may not meet minimum requirements for other states. See the Professional Licensure Disclosure at www.iecc.edu/licensuredisclosure for more information.
